## COMPANY INFORMATION

Framing – Lincoln Military Housing  
Fort Sam Houston

### Company Overview

Henock Construction has been providing construction services to the private and government sector in San Antonio since 2001. Our completed projects include new construction, interior renovations, building maintenance and repair, and site work. We recently expanded our operations to Arkansas.

### Quality Control Management

We develop a quality control plan for every project. It is to insure that construction is performed according to plans, specs, on time, and within a defined budget. The quality control plan includes a series of checklists and procedures that must be completed on a daily basis this ensures that the standards of quality are met for all our clients.

### Safety

We continually strive to provide a safe working environment for our employees and the people around us. We have a Safety and Loss prevention plan in place for all our projects. The safety plan includes weekly safety meetings and daily safety inspections of the work site and equipment.

### Clients

- U.S. Army
- U.S. Air Force
- Galaxy Builders, Ltd.
- 4M Properties
- Texas Facilities Commission
